I began playing lacrosse with JDF at age four. Over 12 years as a referee and 10 as a volunteer coach, I've helped players develop skills and confidence while fostering team growth. Though I don't have children in the program, I volunteer to give future players the chance to love lacrosse as I have.

Beyond JDF, I've organized camps, teams, tournaments, and worked with the Victoria Shamrocks. I own Van Island Plumbing, where I manage staff, training, schedules, and budgets—skills I'd bring to the board alongside my experience as a player, official, and coach.

My vision is for JDF to be a program players want to join, families are proud of, and every athlete can reach their potential, from beginners to advanced. This association should serve as a stronger representative for our sponsors. I maintain strong relationships with former Whaler players and aim to encourage their return to contribute to the sport they are deeply passionate about.

If elected, I'll focus on:
• Strengthening player development U7-U17 with clear fundamentals, volunteer resources, winter practices, and competitive B teams.
• Supporting goalies through dedicated coaching, better equipment access, and at least two goalies per team from U13 up.
• Making lacrosse accessible by promoting the sport in schools, securing sponsorships to reduce costs, and easing tournament expenses.
• Celebrating JDF with a community day, recognizing contributors, and restoring championship banners in arenas.

I will begin by listening to coaches, officials, families, and players to understand needs, then collaborate with the board to drive positive change.

Thank you for considering my nomination. JDF launched my lacrosse journey, and I'm committed to giving others the same opportunity.
